

**Doing  
more  
with less.**

Volant delivers highly effective equipment and services to provide casing and liner solutions.

Our solutions are simple, affordable, and proven to do more in even the most challenging field conditions.

 **VOLANT**®

# Volant Overview

## Proven Engineering, Proven Casing and Liner Solutions

At our core, Volant is a technology company. We design and manufacture new equipment to make your work productive, safer and easier.

We do this through smart-design; it's our commitment to *Doing more with less*.

Our ideas come from getting up close and personal with industry challenges; our success from applying the basics simply and effectively to deliver elegant solutions.

Volant's Light Footprint™ Tubular Running Solutions for casing and liner installations is field proven and offers improved safety and increased productivity at a reduced cost by drastically reducing manpower and equipment requirements. Ask us how we can help you go lighter.

## Brains Meet Brawn

Our equipment isn't just smart, it's tough enough to withstand even the harshest conditions.

We offer robust technologies that are designed, tested and manufactured in-house and then proven where it matters – in the field.

The result: A full suite of products that earn their place as industry benchmarks.

## We're With You All the Way

Volant products are making a difference around the world – enhancing operations on six continents. We've gained this presence since 2001; the result of strong and stable relationships with satisfied customers.

**Give us a problem. Or just drop us a line if you want to know more.**

Our role is standing shoulder-to-shoulder with you to facilitate successful wells. This includes an emphasis on solutions before sales and relationships that exemplify service, quality and safety.

Headquartered in Western Canada, this is also where we put our technology to work through on-site services and training.

## Services

Sales and equipment rental

Light Footprint™ Tubular Running Solutions

Equipment Maintenance & Refurbishment Programs

Equipment Training

Engineering Consulting Services that focus on advancing well construction, integrity and production, offered through Volant subsidiary, Noetic Engineering

Centralizer Optimization Solutions through Applications Engineering support

24/7 Customer Support

## Products

CRT® & CRTe® Casing Running Tools and standard application CwD and CRA equipment

Handling Equipment

Casing Running Accessories

Cement Swivel and Plug Launcher  
Cementing Tools

DeltaTORQ™ and MLT™ Torque Rings

HydroFORM® Centralizers

VolantRED™ A real-time system that extends your engineering to field operations to optimize your well construction decisions.
